

29 Sept 1959

25X1A9A

Subj: Semi-Annual Report to the Resident's Board of Consultants
(Hull Committee)

1. As for "significant" contributions made by O&M Staff (DD/S Area) during the period 1 April through 30 September 1959, I would say "none." Our major effort has been devoted to the depth survey of the Office of Logistics. [redacted] Any attempt to evaluate contributions from this effort at this time would be premature.

2. Contributions to improved support efficiency have been made thru:

- a. Consolidation of files (overt and covert) in Office of Security.
- b. Reducing/processing time of OS Information Reports.
- c. Reducing elapsed time between application for language award and final answer re [redacted] entitlement.
- d. Improved procedures, resulting from survey, in Special Services Branch at [redacted]
